-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 10, 11 and 21-24 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 10 and 11 recite the limitation "the fastener" in lines 1 and 2 respectively. There is insufficient antecedent basis for this limitation in the claim.

Claim 21 recites the limitation "the first means" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 22 recites the limitation "the second means" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 23 recites the limitation "the means for" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 24 recites the limitation "the vane trunnion" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3745

Claims 1, 3, 5, 6, 15, 17, 19 and 21 as far as it is definite are rejected under 35 U.S.C. 102(b) as being anticipated by Ludwick (4,668,165). Ludwick discloses a variable vane arm, comprising: a mounting head having a back plate and first and second claws 312/313 extending from the mounting head and defining a vane receiving area. The vane receiving area including first and second lateral slots and a surge slot defined by space 315 and flanked by the lateral slots. The back plate includes an aperture to allow item 214 to pass through.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ludwick (4,668,165). Ludwick discloses all of the claimed subject matter as stated above except the actuation lever being manufactured from titanium.

Since applicant has not disclosed that having the actuation arm being manufactured from a specific material solves any stated problem or is for any particular purpose above the fact that titanium is a stronger lighter material and it appears that actuation arm of Ludwick would perform equally well being manufactured from a material as claimed by applicant, it would have been an obvious matter of design choice to modify the actuation arm of Ludwick by utilizing the specific material as claimed for the purpose of reducing weight and increasing strength.

CONCLSUION

Allowable Subject Matter

Claims 8, 9, 12-14, 20 and 25-27 are allowed.

Claims 2, 7 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 21-24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
